

## CeraTek P-Series Medical Pouch Sealer

Model 12-P/2

Model 24-P/2

**The CeraTek P-Series Precision Pass-Thru Heat Sealer is a multi-use precision table top bar sealer** engineered for medical pouches and precision sealing applications. The P-Series design allows for both front-to-back and lateral pass-thru capabilities for sealing the pouch at any depth (perfect for header bags that require a secondary seal below the header after sterilization). Available in 12" or 24" wide versions.

SencorpWhite also offers a 2-year standard warranty for most CeraTek machines. For further details please contact the CeraTek Sales Department.
