### **SencorpWhite to Attend the ASHP Midyear Clinical Meeting & Exhibition**

**Hyannis, MA, USA, November 21, 2011** – SencorpWhite, the leader in distributed inventory systems for managing high-value medical supplies, will be attending the ASHP Midyear Clinical Meeting and Exhibition at the Ernest N. Morial Convention Center in New Orleans, Louisiana from December 4-8, 2011. The company will be located at booth #1918.

SencorpWhite will be showcasing its industry-leading automated storage/retrieval systems featuring advanced inventory management software and Auto-ID technology for the secure management of pharmaceuticals and other high-value medical inventory within medical centers, hospitals, clinics, laboratories, and doctors' offices. Increased dispensing accuracy and efficiency protect patient information and tightly control inventory at the point-of-use. SencorpWhite offers a full portfolio of systems, including:

**WillCall Rx™** – for secure storage and 100% accurate distribution of prescriptions in high-volume pharmacy applications;

**MicroVert and MiniVert™** – compact, portable carousels for secure management of high-value supplies such as medical devices, instruments, and other clinical inventory at the point-of-use;

**CleanRoom Connect™** – space efficient, automated system to securely store, move, and manage inventory in up to a Class 100 clean room environment.

SencorpWhite's medical-focused distributed inventory systems feature advanced Genesis software enabling point-of-use inventory tracking, real-time reporting, and virtual management of distributed inventory that is compatible with many enterprise resource planning (ERP) systems as well as other commercially-available medical management software programs. In addition, the software leverages Auto-ID (RFID-based) technology to ensure accuracy while minimizing the need to manually scan individual items, saving employee time and energy.

“SencorpWhite and its partners will be attending ASHP to showcase our advanced distributed inventory systems and software designed and engineered for numerous medical applications,” stated Brian Urban, President and CEO of SencorpWhite. “Our systems enable healthcare organizations to better safeguard and track high-value medical devices, control pharmaceuticals, and ensure patient confidentiality.”
